Sri Vasavi Engineering College Research Dossier

A source-linked, RAG-ready knowledge base for the Pedatadepalli, Tadepalligudem campus

Purpose: provide a reliable starting corpus for a conversational college FAQ chatbot. This dossier paraphrases public material; it does not copy source pages or reviews. It was compiled on 26 September 2026 and should be refreshed before using it for high-stakes current information.

Main conclusion: the best chatbot design is a retrieval-augmented system that gives official SVEC and regulatory documents priority, records source dates, and treats review-site commentary as clearly attributed opinion. Similar-name search results for the Hyderabad institution must be excluded.

How to use this dossier

Use the factual sections as seed documents, but also download the linked official pages and notices for your vector store. Keep every source as its own document with URL and date metadata. The summaries below help the chatbot route and frame answers; they do not replace current official notices.

Source confidence tiers

- Tier 1 - official SVEC pages and government or regulatory records: preferred for factual answers.
- Tier 2 - official SVEC alumni and official LinkedIn school pages: useful for institutional and alumni context.
- Tier 3 - commercial review portals: useful only for attributed student-perspective synthesis.
- Excluded - similarly named colleges, unsupported social posts, undated claims and copied review text.

Verified and attributed knowledge notes

Identity and location

- Sri Vasavi Engineering College is located at Pedatadepalli, Tadepalligudem, West Godavari District, Andhra Pradesh, 534101.
- The college says that it was established in 2001 by Sri Vasavi Educational Society.
- The official website identifies the institution as an autonomous college and says it received UGC autonomous status in 2018.
- The official site states that the college is approved by AICTE and permanently affiliated with JNTU Kakinada.
- The official site states that the institution is recognized by UGC under Sections 2(f) and 12(B).
- The website lists the main public contact phone number as 08818-284355 and the principal email as principal@srivasaviengg.ac.in.
- The official admissions page lists the AP EAPCET college code as VSVT.
- The college describes the campus setting as Pedatadepalli near Tadepalligudem; an older official brochure describes it as approximately five kilometres from the town centre.
- Do not confuse this institution with Vasavi College of Engineering in Hyderabad, Telangana. They are different colleges with similar names.

Recognition and quality

- The official site reports NAAC accreditation with A Grade.
- The official site reports NBA accreditation for selected undergraduate programmes; the programmes and accreditation validity should be checked from the current NBA disclosure before answering high-stakes questions.

- The official home page currently highlights EEE, Mechanical Engineering and ECE under NBA accreditation.
- A historic college disclosure also refers to NBA accreditation for EEE, CSE, Mechanical Engineering and ECE. Because accreditation periods vary, the chatbot should phrase this as time-sensitive information.
- The college maintains an NIRF page with links for Engineering, Management, SDG Institution and Overall submissions for recent years.
- An official NIRF 2024 overall submission identifies the institute code as IR-O-C-18129.
- The college reports five JNTU Kakinada-recognized research centres on its official home page.
- For RAG, prefer official statutory disclosure pages for accreditation, approvals, intake and fees over aggregator pages.

Vision and educational approach

- The stated vision is to be a premier technological institute striving for excellence with a global perspective and commitment to the nation.
- The official mission emphasizes learner-centric education, industry and research linkages, innovation dissemination and holistic lifelong learning.
- The college presents discipline, values and industry-oriented practical learning as part of its educational approach.
- The official site describes its aim as developing technical competence together with ethical values and leadership qualities.
- The institution presents research, innovation and industry collaboration as recurring institutional priorities.
- The official about page says that autonomous status allows the curriculum to be adjusted to evolving industry needs.

Academic offerings

- The official site lists undergraduate engineering programmes in AI and ML, Civil, CSE, CSE AI, CSE Data Science, EEE, ECE, ECT, IT and Mechanical Engineering.
- The official site also reports postgraduate offerings including M.Tech and MBA, plus diploma offerings. Exact specializations and intake should be retrieved from the current admissions page.
- The CSE department was established in 2001. Its official page says the B.Tech intake grew from 60 to 300 by 2024.
- The CSE department says it offers an M.Tech CSE AI and ML programme, with its page listing GATE or PGCET eligibility.
- The CSE AI department was established in 2021. Its official page says the B.Tech intake grew from 60 to 180 by 2025.
- The Civil Engineering department was established in 2011 and reports B.Tech Civil plus M.Tech Structural Engineering offerings.
- The EEE department was established in 2002. Its page says the department has a JNTU Kakinada-recognized research centre.
- The ECT department began in 2019 with a B.Tech intake of 60, according to its official page.
- The Mechanical department page says its B.Tech programme began in 2010 and identifies FAME and the Institution of Engineers India student chapter as student-engagement channels.
- The academics page publishes UG and PG academic calendars, model question papers, regulations and autonomous-section material.

Admissions and fees

- The official admissions page displays 4-year B.Tech programmes with 8 semesters.
- The displayed annual fee on the official admissions page is Rs 77,200 for the listed B.Tech programmes. Fee information can change, so the chatbot should always advise applicants to verify the current notice.
- An official historical admission disclosure says that convenor quota admissions constituted 70 percent of intake and required the relevant AP entrance examination. This should not be treated as the current rule without a current official notice.

- The official CSE, CSE AI, Civil, EEE, ECE and ECT department pages list AP EAPCET as the B.Tech eligibility route.
- Department pages list GATE or PGCET as eligibility routes for relevant M.Tech programmes.
- The official UGC model disclosure links to admission policy, year-wise admissions, fee structure, student support, grievance redressal and anti-ragging material.
- When answering admissions questions, cite the admission year and distinguish tuition from hostel, transport, examination and other charges.

Campus and student facilities

- The official about page describes advanced laboratories, a central library, audio-visual classrooms, a sports complex, an indoor stadium, seminar halls, an auditorium, lawns, gardens and parking.
- The official about page names an AICTE-sponsored IDEA Lab as an innovation and hands-on learning facility.
- The official about page mentions solar power generation, an RTA-approved pollution check-up centre and student-designed battery-operated vehicles.
- The official site describes hackathons, technical exhibitions and trade shows as opportunities for practical exposure.
- The official site says that NSS activities promote discipline, social responsibility and civic awareness.
- The public review sample commonly mentions classrooms, laboratories, library access, projectors and campus cleanliness. These are student opinions, not audited facility claims.
- Some public reviews say laboratory modernization, advanced equipment and wider industry exposure could improve. Treat this as feedback rather than institutional fact.

Research innovation and outreach

- The official site describes research and development as an activity involving faculty, students and stakeholders.
- The official home page reports more than one crore rupees in research funding, but the page's at-a-glance figures are dynamically rendered and should be rechecked before quoting a precise total.
- The official about page highlights eco-friendly projects and practical technology activities.
- An official IQAC meeting record reports that the institution discussed NIRF, NAAC and ARIIA parameters and states that it ranked 54th in ARIIA 2020. This is a historical statement, not a current rank.
- The official UGC disclosure provides links for community outreach, research infrastructure, industry partnerships and employability information.
- RAG answers about rankings, project funding and collaborations should include a date because those figures change.

Placements and alumni

- The official home page says that more than 80 companies visit annually. Treat this as a current institutional claim that should be time-stamped when used.
- The public placement page was available at research time but did not expose detailed placement statistics in the page text. A chatbot should not invent a placement percentage or salary figure.
- LinkedIn publicly identifies the school page as Sri Vasavi Engineering College in Tadepalligudem, Andhra Pradesh.
- LinkedIn's public alumni view reported roughly 11,768 alumni and about 13,944 followers when checked. These platform counts change and should not be stored as timeless facts.
- The LinkedIn alumni page showed Tata Consultancy Services, Accenture, Cognizant, Infosys and L and T Technology Services among visible employer aggregates.
- The LinkedIn alumni page showed Engineering and Information Technology among visible functional aggregates.
- The official alumni network provides an alumni directory and institutional alumni-network presence.
- Public student reviews give mixed placement accounts. Some report support, training and opportunities; others say outcomes vary by branch, labour market and individual preparation.

- Third-party salary and placement-rate figures are not reliable enough to present as verified facts unless matched against an official annual placement report.

Student experience from public reviews

- Careers360 displayed an aggregate rating of 3.9 out of 5 from 113 reviews at research time. Ratings and sample size change over time.
- Careers360's category summary at research time showed infrastructure 4.0, academics 3.9, placements 3.7, value for money 3.8 and campus life 4.0. These are third-party aggregates, not official metrics.
- Public reviewers often describe the campus as disciplined, organized and suitable for regular study.
- Some reviewers praise faculty accessibility, basic learning facilities, training sessions and technical or cultural activities.
- Some reviewers identify a stronger need for independent projects, online learning, certifications and internship preparation to become industry-ready.
- Some reviewers say core-branch opportunities can be more limited than software-role opportunities. This is anecdotal and must not be generalized as a verified placement outcome.
- Review sites contain contradictory and time-specific accounts; retrieve several documents and state the range of perspectives instead of treating a single review as fact.
- No reliable Reddit material for Sri Vasavi Engineering College in Tadepalligudem was incorporated. Search results included posts about the unrelated Hyderabad college, so those posts were excluded.

Chatbot grounding rules

- Use official SVEC pages as the first retrieval tier for identity, programmes, admissions, examinations, regulations, faculty, notices, fees and accreditation.
- Use government and regulatory documents as the first retrieval tier for NIRF, approval, ranking and statutory facts.
- Use LinkedIn only for publicly visible alumni and institutional-social context, with dates.
- Use review platforms only for attributed student-perspective summaries; never state a review opinion as institutional fact.
- Do not answer a precise current admission deadline, cutoff, fee, intake, placement number, accreditation validity or faculty list without a dated official source.
- If context does not contain the answer, say that the information is not available in the indexed sources and direct the user to the official website or admissions office.
- Keep separate metadata for source URL, publisher, access date, publication date when known, topic, confidence tier and campus identifier.
- Tag every document with the exact campus: Sri Vasavi Engineering College, Pedatadepalli, Tadepalligudem, Andhra Pradesh.

Current B Tech programme snapshot

The following values were displayed on the official admissions page at research time. They are intentionally labelled as a snapshot because admissions intake and fees can change. The bot should retrieve the live admissions notice for a final answer.

Programme	Duration	Current intake	Displayed annual fee
B.Tech Artificial Intelligence and Machine Learning	4 years	180	Rs 77,200
B.Tech Civil Engineering	4 years	60	Rs 77,200
B.Tech Computer Science and Engineering	4 years	300	Rs 77,200
B.Tech CSE Artificial Intelligence	4 years	180	Rs 77,200
B.Tech CSE Data Science	4 years	60	Rs 77,200
B.Tech Electrical and Electronics Engineering	4 years	60	Rs 77,200
B.Tech Electronics and Communication Engineering	4 years	240	Rs 77,200
B.Tech Electronics and Communication Technology	4 years	60	Rs 77,200
B.Tech Information Technology	4 years	60	Rs 77,200
B.Tech Mechanical Engineering	4 years	60	Rs 77,200

RAG FAQ seed set

These answer seeds are paraphrases designed to teach the future chatbot the answer style. They are not a substitute for retrieving source context. For changing details, the answer must ask the retriever for a current official source.

1. Where is SVEC located?

Pedatadepalli, Tadepalligudem, West Godavari District, Andhra Pradesh, 534101.

2. When was SVEC established?

The official website states that Sri Vasavi Engineering College was established in 2001.

3. Is SVEC autonomous?

The official website states that the college received UGC autonomous status in 2018.

4. Which university is SVEC affiliated with?

The official website states that it is permanently affiliated with JNTU Kakinada.

5. What is the AP EAPCET code?

The official admissions page lists VSVT. Verify with the current AP EAPCET counselling notice.

6. Which B.Tech programmes are listed?

AI and ML, Civil, CSE, CSE AI, CSE Data Science, EEE, ECE, ECT, IT and Mechanical Engineering are listed on the official admissions page.

7. How long is a B.Tech programme?

The official admissions page lists a four-year, eight-semester format.

8. What is the displayed B.Tech annual fee?

The admissions page displayed Rs 77,200 per year at research time. Verify the current fee notice before relying on it.

9. Does the college publish academic calendars?

Yes. The official academics page includes UG and PG academic calendars and related academic materials.

10. Does the college have a CSE department?

Yes. The CSE department page says it was established in 2001.

11. Does SVEC offer CSE AI?

Yes. The official CSE AI department page lists a B.Tech CSE Artificial Intelligence programme.

12. Does SVEC offer Data Science?

The admissions page lists B.Tech CSE Data Science.

13. Does SVEC offer MBA?

The official site reports an MBA offering; confirm current admission details on the official admissions page.

14. Does SVEC have research centres?

The official home page reports five JNTU Kakinada-recognized research centres.

15. Does SVEC have an innovation lab?

The official about page mentions an AICTE-sponsored IDEA Lab.

16. What facilities are described officially?

The official about page describes laboratories, a library, audio-visual classrooms, sports facilities, indoor stadium, seminar halls and an auditorium.

17. Does SVEC have an alumni network?

Yes. An official alumni-network site and LinkedIn school page are publicly available.

18. Are placement statistics available?

Use only the latest official placement report. The public placement page did not expose detailed statistics in the research snapshot.

19. What do student reviews say?

Reviews are mixed: many mention a disciplined study environment and basic facilities, while some request stronger advanced-lab and industry exposure. These are individual views.

20. Which college is this document about?

Sri Vasavi Engineering College at Pedatadepalli, Tadepalligudem, Andhra Pradesh - not Vasavi College of Engineering in Hyderabad.

Recommended ingestion plan

- Create separate plain-text or Markdown files for each official page, department, admission notice, calendar, regulation, placement report and policy document.
- Store each file with metadata: source_url, title, campus_name, source_type, publisher, published_date if available, accessed_date, confidence_tier, topic and effective_academic_year.
- Use chunks of roughly 500 to 800 characters with a small overlap. Keep tables as standalone chunks or convert each row to a short sentence before embedding.
- Set a retrieval filter or prompt constraint that rejects documents for Vasavi College of Engineering Hyderabad.
- Retrieve 3 to 5 passages. Ask the LLM to use only retrieved context, cite links in its answer, and say it does not know when supporting context is absent.
- For reviews, produce an answer such as: 'Public reviews show mixed opinions...' followed by a caveat. Never write 'SVEC has poor placements' or any similar unqualified claim from one review.
- Refresh admissions, fee, academic calendar, placement, accreditation and ranking material each academic cycle.

Known gaps for the next research pass

- Current academic-year official placement report with branch-wise counts, salary distribution and recruiter list.
- Current EAPCET counselling cutoffs, deadlines and category-specific admission guidance from official counselling sources.
- Current hostel, transport, cafeteria and accommodation policy. Do not infer these from old brochures or reviewer comments.
- Current faculty directory, department laboratories and detailed course syllabi, downloaded directly from the official site.
- Current NBA programme accreditation validity and current NAAC cycle documentation.
- Public Google Maps review data was not copied into this dossier. If later added, use a dated summary rather than raw reviews and respect platform terms.

Source register

All URLs below were accessed during the research window. Links are provided so you can download the original sources for your RAG folder. A source's presence in this register does not mean every claim on it is treated equally; the confidence tiers above still apply.
